

School Supply List 2020-2021

To help keep everyone safe, we want to limit the number of things we bring to and from school. We will be making every effort to utilize digital resources in most of our instructional classes, however all students should have the following to use at home:

- One to two notebooks
- Pens
- Pencils
- Folder to organize any printed materials you may receive

Students physically coming to school

- Pens and Pencils
- A notebook
- A folder
- Small package of personal tissues (for personal use only, not for the entire class)

- Recommended: Small personal hand sanitizer (for personal use, not for the entire class)

- Suggested: Personal Headset for use with online learning. A personal headset reduces the amount of background noise during video conferences and also assists clearer communication. Some students may have these already as part of their gaming systems. Make sure you find one that is compatible with your electronic device.

All students and parents should have activated their NYC Schools account. The link is on the school website. Please contact Ms. Boone the Parent Coordinator at jboone3@schools.nyc.gov or Mr. Habibi, Community Associate @ shabibi@schools.nyc.gov if you need assistance.
